

Commercial Information

NTS dynamise son offre commerciale pour mieux répondre aux attentes de ses clients en temps de crise

At the heart of Cimlec Industrie since 2007, NTS is world renowned as the designer (numerous patents) of the high feasibility air conveyor, combining technology and reliability.

You have been a customer for several years because NTS has known how to diversify its offer in order to provide you with technical and economical solutions that meet your needs.

Our proposals ensure the reliability of your installations: in addition to the performance diagnostic, the after-sales service and maintenance, we are looking at the modernization and adaptation possibilities for your production tool, in respect to your key products, together with costs.

Of course, our Engineers are at your disposal to study all your new lines projects.

Our knowledge of your environment enables us to precisely meet your expectations. You will appreciate NTS' know-how, the quality of its realisations and the professionalism of its field technicians.

Our projects are yours... ...Your expectations are ours.

Feel free to contact us for studying your project of line set-up or renewal. Please do not hesitate to visit our web site www.ntsgruppe.com featuring our after-sale-department catalogue.
